

Dimensional US Small Cap Value Systematic Index

DFAUSVS

US small cap value equity index targeting higher expected returns.

- Designed by a pioneer in small cap value investing
- Draws on decades of rigorous academic research
- Pursues higher expected returns

OVERVIEW

Ticker	DFAUSVS
Return Type	Price-Only
Live Date	2/9/2023
Base Date	3/31/2003
Rebalance Frequency	Quarterly

The Dimensional US Small Cap Value Systematic Index provides exposure to small companies with low relative prices in the US. Drawing on theoretical and empirical research, the index pursues higher return potential by systematically excluding the lowest expected return stocks in this area of the market, such as companies with low profitability and high asset growth.

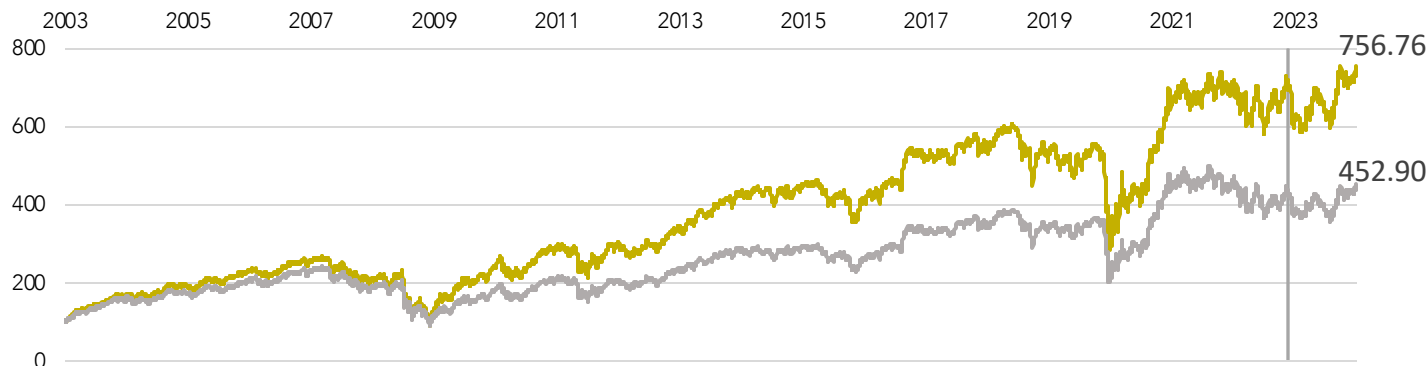

Dimensional is one of the industry’s most experienced US small cap value managers, pioneering one of the first strategies dedicated to the market segment in 1992.

GROWTH OF WEALTH

Past performance, including hypothetical performance, is no guarantee of future results. Data shown prior to the live date of February 9, 2023 (noted by a vertical line in the chart above) is hypothetical. The Dimensional US Small Cap Value Systematic Index has been retrospectively calculated with the benefit of hindsight and did not exist prior to the index’s live date. Accordingly, results shown during the periods prior to the index’s live date does not represent actual returns of the index. Other periods selected may have different results, including losses. Backtested index performance is hypothetical and is provided for informational purposes only to indicate historical performance had the index been calculated over the relevant time periods. The Index is a price-only index, which does not reflect the reinvestment of dividends. Indices are not available for direct investment; therefore, their performance does not reflect the expenses associated with the management of an actual portfolio.

DISCLOSURES

This information is not meant to constitute investment advice, a recommendation of any securities product or investment strategy (including account type), or an offer of any services or products for sale, nor is it intended to provide a sufficient basis on which to make an investment decision. Investors should consult with a financial professional regarding their individual circumstances before making investment decisions.

The Dimensional US Small Cap Value Systematic Index (the "Index") is sponsored and published by Dimensional Fund Advisors LP ("Dimensional"). References to Dimensional include its respective directors, officers, employees, representatives, delegates or agents. The Index is not available for direct investment. There is no guarantee of index success. Risks include loss of principal and fluctuating value. Small cap securities are subject to greater volatility than those in other asset categories. Value investing is subject to risk which may cause underperformance compared to other equity investment strategies.

Dimensional does not make any express or implied warranties, including, but not limited to, any warranties of merchantability or fitness for a particular purpose or use with respect to the Index, or as to results to be obtained by any financial product based on or related to the Index (a "Financial Product") or any other person or entity from the use of the Index, trading based on the Index, the levels of the Index at any particular time on any particular date, or any data included therein, either in connection with a Financial Product or for any other use. Dimensional has no obligation or liability in connection with the administration, marketing or selling of a Financial Product.

In certain circumstances, Dimensional may suspend or terminate the Index. Dimensional has appointed a third-party agent (the "Index Calculation Agent") to calculate and maintain the Index. While Dimensional is responsible for the operation of the Index, certain aspects have thus been outsourced to the Index Calculation Agent.

Dimensional does not guarantee the accuracy, timeliness or completeness of the Index, or any data included therein or the calculation thereof or any communications with respect thereto. Dimensional has no liability for any errors, omissions or interruptions of the Index or in connection with its use. In no event shall Dimensional have any liability of whatever nature for any losses, damages, costs, claims and expenses (including any special, punitive, direct, indirect or consequential damages (including lost profits)) arising out of matters relating to the use of the Index, even if notified of the possibility of such damages. Dimensional acts as principal and not as agent or fiduciary of any other person. Dimensional accepts no responsibility for this document's contents or use.

The Russell 2000 Value Index measures the performance of Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values.
